Dette dokument indeholder supplerende korrespondance på SKATs spørgsmål om toldsteder fra Tyskland, Sverige, Polen.

Portugal, Finland, Litauen har der ikke været yderligere korrespondance med.

Alle lande er blevet spurgt på en fællesmail med ordlyden:

Dear all...

Does there in your country exists customs offices placed at the internal border opened 24 hours a day

I suppose that you have such a the external border i.e. harbour and airports , but are they also such offices placed at the internal borders.

It will be nice if it is possible to have your (short) answer during today Monday 30 May 2011. It is not necessary to list them – just if there are such offices.

Nedenfor kan du se korrespondancen med de tre lande

8. juni 14:02 svar:

I am just to provide some words

8. juni 14:20 svar:

I suppose that I am in time with my answer - and suggest the following words - good luck!

1. There are no permanent customs controls carried in Germany at the borders to other member states.

2. Permanent customs controls are foreseen in Germany only for goods coming from third countries via German harbours and airports. Other customs controls are carried out in Germany with so called Mobile Control Groups. These Mobile Control Groups are situated all over Germany.

*3. Customs controls are carried out on the basis of risk management. Controls are **not carried out** on the basis of frontier passages, only. Mobile Customs Controls on the internal borders are carried out sporadically and locally restricted.*

4. There are about 220 customs officers active all over in Schleswig-Holstein . They are organized in 9 Mobile Control Groups. They are mostly active in the harbours of Schleswig-Holstein. Those harbours are the frontiers to third countries in Schleswig Holstein.

5. There is only one German mobile control group active at the internal border to Denmark. This group is situated in Flensburg.

8. juni 14:24 spørgsmål:

Can we use this info where the offices are

8. juni 14:28 svar:

there are no offices at the internal borders to Denmark. The Mobile control groups are situated all over Germany. Regarding the internal border to Denmark you can use the complete wording, especially that there is a Mobile Control Group in Flensburg situated. There is no Customs Office in Germany which carries out permanent customs controls at the border to Denmark.

8. juni 14:28 spørgsmål:

Where are the officers which are opened 24/7 is that in flensburg kiel lubeck

8. juni 14:34 svar:

In the harbor and I do not know exactly, if they are working 24 hours a day.

8. juni 14:29 spørgsmål:

But there are offices at the internal border which have opened as you wrote in the 1. Mail

8. juni 14:32 spørgsmål:

You said that there were such offices maybe they do not make control

8. juni 14:33 svar:

yes at the border to Poland and the Czech republic. But they are organized as Inland Customs Officers and clearing goods coming from third countries with transit procedure or are dealing with exports. They do not control passengers.

Sverige:

30. maj 09:51 svar:

No we don't have offices at internal border. We try to have customs officers at the border against Denmark 24-hours, but they belongs to the customs office in Malmoe.

30. maj 11:23 opfølgning:

Tack så mycket

Jeg tager det lidt som om der er døgnbemandede steder

Der er mig bekendt også i Arlanda

Polen

Der er tre svar fra tre forskellige:

30. maj 09:51 svar 1:

Yes, we have Customs offices working 24/7 at internal border. However, they are not numerous. Their role is to provide customs clearance services, not to implement control/surveillance measures.

30. maj 15:30 svar 2:

We have in Poland 2 customs branches working 24 hours a day (but with the exception of national/religious holidays, etc).

31. maj 13:20 svar 3:

I am to inform you that Poland has such customs office - eg. situated directly at the internal border with Germany (Customs Division in Swiecko), operating 24/7/365.
